Overview in brief

This course will develop /increase your knowledge regarding the Phoenix N1 & N2 Aluminium Parapet system. Should you pass the end of course theory exam, you achieve a qualification to the standard laid out in Sector Scheme document 10B.

The finer details

This training course has been developed to provide knowledge to aid in the installation, maintenance, inspection and repair of Phoenix Aluminium Parapets.

The training course will consist of a day of theory in the classroom and a familiarisation/ inspection of an installed Phoenix Aluminium Parapet in our training school. Course theory sections include:

- Product Design, Warranty and liability
- Containment levels
- System Drawings
- Theory Assessment.

Who should attend?

This course is for you if you intend to install, inspect, maintain or repair Phoenix N1 & N2 Aluminium parapets.
